Citations per Publication 

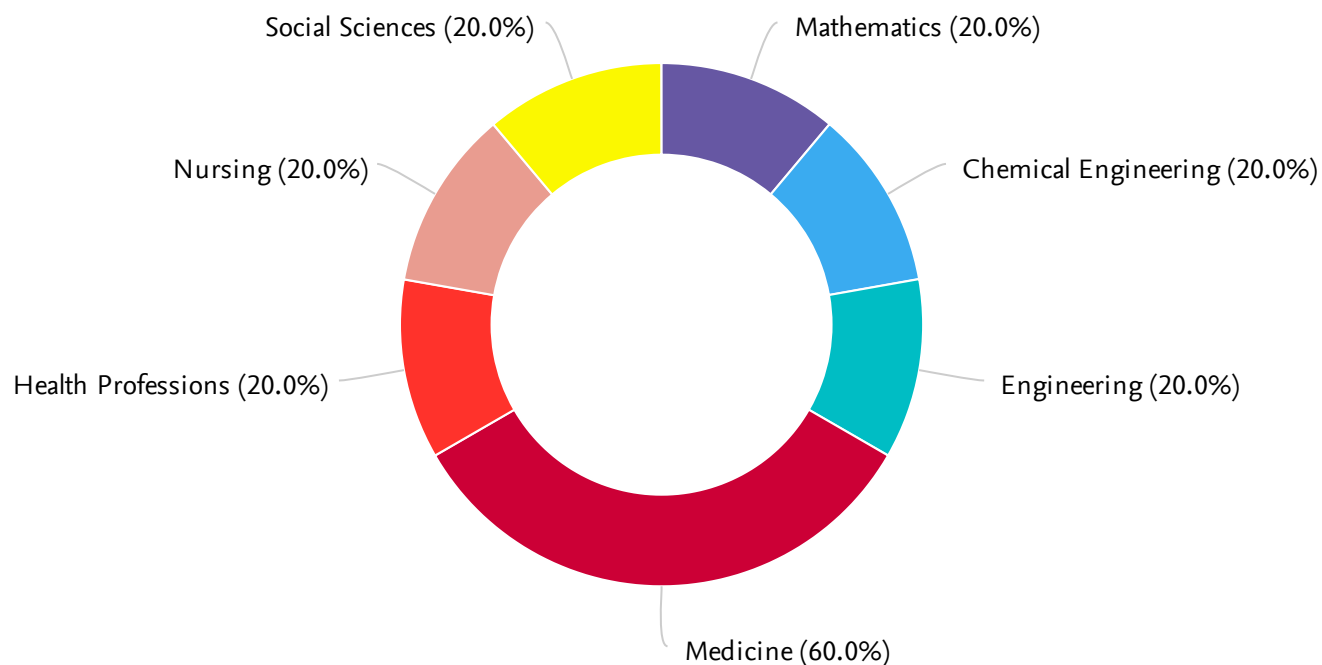

This analysis provides an overall metrics summary of the Publication Set. The snowflake means the metrics have been calculated using the Snowball Metrics methodology.

Note: for Publication Sets with a small scholarly output, please beware of highly cited publications which may skew the FWCI.

Publication share by Subject Area

Entity: Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

This gives an overview of the Subject Areas in which the articles from the Publication Set are published and is based upon the high level All Science Journal Classification (ASJC). These Subject Areas are assigned to all articles via the journals in which they are published. Please note, that an article can belong to more than one ASJC.

Scholarly Output

Entity: Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

5

number of publications by authors in Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022

▨ Incomplete year

Scholarly Output indicates the prolificacy of the Publication Set: how many publications does the Publication Set have indexed in Scopus during the time period?

Note: some subject areas produce more scholarly output than others.

Citation Count

Entity: Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

194

number of citations received by publications in Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022

▨ Incomplete year

Citation count indicates the total citation impact of the Publication Set: how many citations have these publications received? The years are always the years in which items were published, and do not refer to the years in which citations were received.

Note: some subject areas cite publications more often than others.

Outputs in Top 10% Citation Percentiles (field-weighted)

Entity: Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

Share of publications in Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 that are among the most cited publications worldwide

field-weighted

1 (20.0%)

number of publications in the top 10% most cited publications worldwide

■ % publications in top 10% most cited

■ % publications in top 1% most cited

▨ Incomplete year

Outputs in Top Citation Percentiles indicates the extent to which the publications are present in the top 10% most-cited percentiles within Scopus. This number is then field-weighted to normalize for differences in subject area citation patterns.

Publications in Top Journal Percentiles by CiteScore Percentile

Entity: Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

Share of publications in Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 that are in the top journals by CiteScore Percentile

0 (0.0%)

number of publications in the top 10% journals by CiteScore

0%

2019

2020

2021

2022

- % publications in top 10% journals
- % publications in top 1% journals
- ▨ Incomplete year

Publications in Top Journal Percentiles indicates the extent to which the Publication Set's publications are present in the most-cited journals in Scopus by CiteScore percentile. The percentage thresholds are taken directly from the CiteScore Percentile values that are calculated by Scopus. A journal receives a CiteScore Percentile for each ASJC in which it's categorized. SciVal always uses the highest relevant CiteScore Percentile, which is dictated by the subject area filter.

Field-Weighted Citation Impact

Entity: Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

▨ Incomplete year

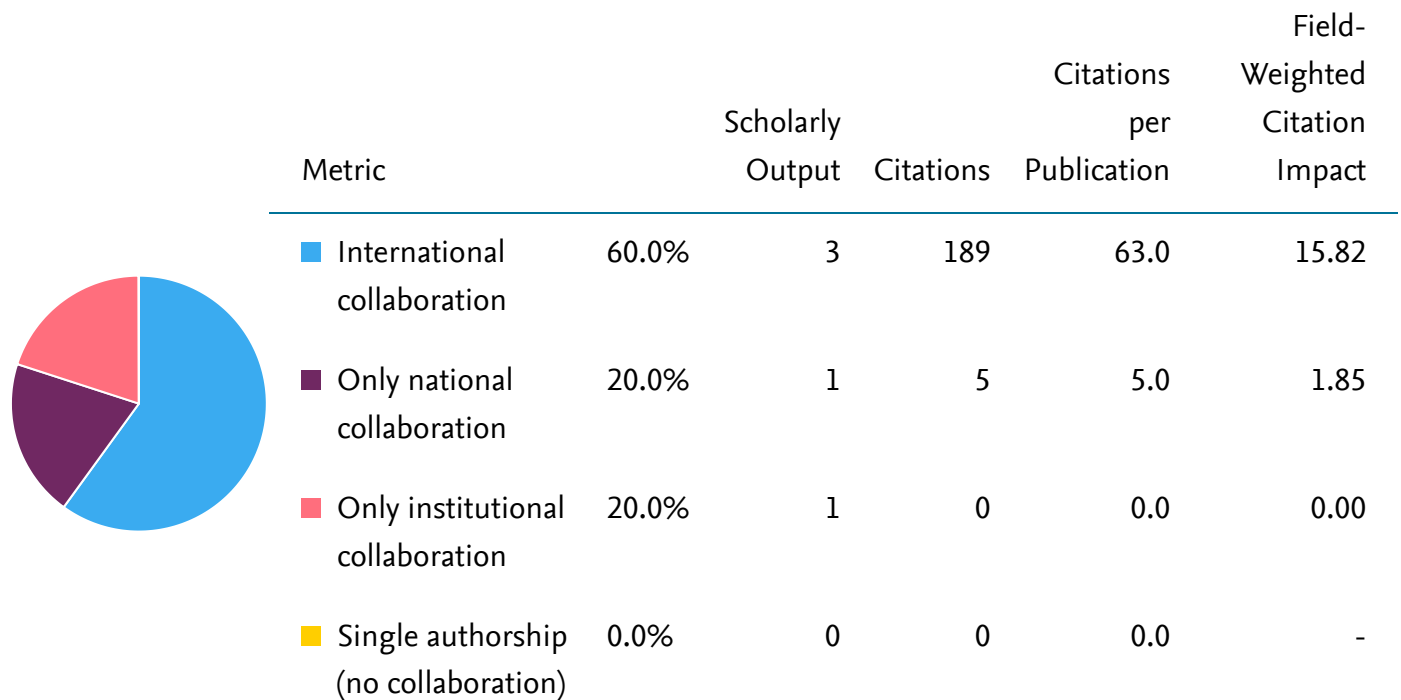

Field-Weighted Citation Impact (FWCI) indicates how the number of citations received by the Publication Set's publications compares with the average number of citations received by all other similar publications in Scopus. A FWCI of 1.00 indicates that the Publication Set's publications have been cited exactly as would be expected based on the global average for similar publications. A FWCI of more than 1.00 above average citations; for example, 2.11 means 111% more than the world average. Note: for Publication Sets with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Geographic Collaboration - Overall

Entity: Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

International, national and institutional collaboration by in Publications at Assiut University within SDG 1: No Poverty | 2019 to 2022 in the selected year range.

Indicates the extent to which the Publication Set's publications have international, national, or institutional co-authorship, and single authorship. A publication is assigned a single collaboration type.

Note: for collaboration types with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Publications in Top Journal Percentiles by CiteScore Percentile

Entity: Publications at Assiut University within SDG 4: Quality Education (2019-2022) · Year range: 2019 to 2022

· Data source: Scopus, up to 10 May 2023

Share of publications in Publications at Assiut University within SDG 4: Quality Education (2019-2022) that are in the top journals by CiteScore Percentile

Publications in Top Journal Percentiles indicates the extent to which the Publication Set's publications are present in the most-cited journals in Scopus by CiteScore percentile. The percentage thresholds are taken directly from the CiteScore Percentile values that are calculated by Scopus. A journal receives a CiteScore Percentile for each ASJC in which it's categorized. SciVal always uses the highest relevant CiteScore Percentile, which is dictated by the subject area filter.

Field-Weighted Citation Impact

Entity: Publications at Assiut University within SDG 4: Quality Education (2019-2022) · Year range: 2019 to 2022

· Data source: Scopus, up to 10 May 2023

4.02

Field-Weighted Citation Impact of Publications at Assiut University within SDG 4: Quality Education (2019-2022)

▨ Incomplete year

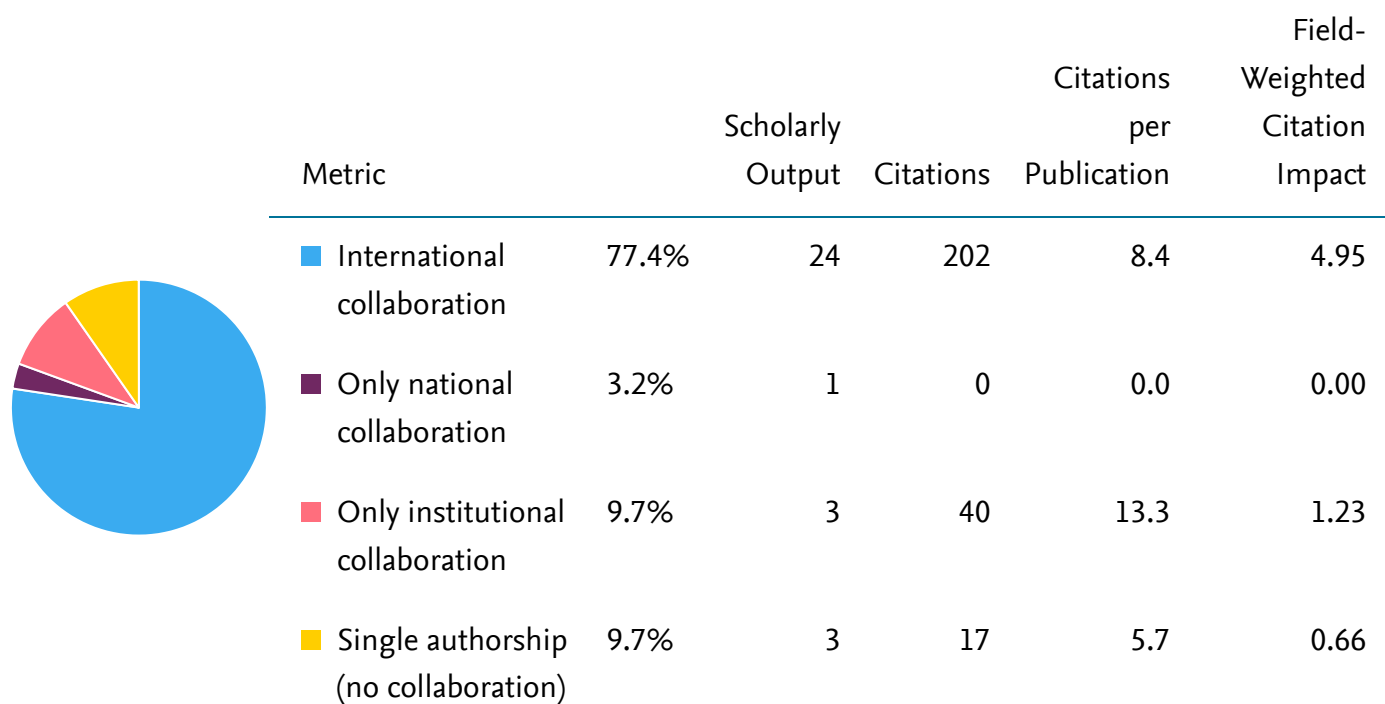

Field-Weighted Citation Impact (FWCI) indicates how the number of citations received by the Publication Set's publications compares with the average number of citations received by all other similar publications in Scopus. A FWCI of 1.00 indicates that the Publication Set's publications have been cited exactly as would be expected based on the global average for similar publications. A FWCI of more than 1.00 above average citations; for example, 2.11 means 111% more than the world average. Note: for Publication Sets with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Geographic Collaboration - Overall

Entity: Publications at Assiut University within SDG 4: Quality Education (2019-2022) · Year range: 2019 to 2022

· Data source: Scopus, up to 10 May 2023

International, national and institutional collaboration by in Publications at Assiut University within SDG 4: Quality Education (2019-2022) in the selected year range.

Indicates the extent to which the Publication Set's publications have international, national, or institutional co-authorship, and single authorship. A publication is assigned a single collaboration type.

Note: for collaboration types with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

The institutions with the highest scholarly output in the Publication Set, along with some metrics about them.

Note: the green upwards arrow indicates an overall increase in the metric between the selected time range.

Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022)

Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022)
2019 to 2022

Overall research performance

Entity: Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

67 Scholarly Output  58.2% Open Access	272 Authors	2.25 Field-Weighted Citation Impact 
1,025 Citation Count 	15.3 Citations per Publication 	

This analysis provides an overall metrics summary of the Publication Set. The snowflake means the metrics have been calculated using the Snowball Metrics methodology.

Note: for Publication Sets with a small scholarly output, please beware of highly cited publications which may skew the FWCI.

Publication share by Subject Area

Entity: Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

This gives an overview of the Subject Areas in which the articles from the Publication Set are published and is based upon the high level All Science Journal Classification (ASJC). These Subject Areas are assigned to all articles via the journals in which they are published. Please note, that an article can belong to more than one ASJC.

Scholarly Output

Entity: Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

67

number of publications by authors in Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022)

▨ Incomplete year

Scholarly Output indicates the prolificacy of the Publication Set: how many publications does the Publication Set have indexed in Scopus during the time period?

Note: some subject areas produce more scholarly output than others.

Citation Count

Entity: Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

1,025

number of citations received by publications in Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022)

▨ Incomplete year

Citation count indicates the total citation impact of the Publication Set: how many citations have these publications received? The years are always the years in which items were published, and do not refer to the years in which citations were received.

Note: some subject areas cite publications more often than others.

Outputs in Top 10% Citation Percentiles (field-weighted)

Entity: Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

Share of publications in Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) that are among the most cited publications worldwide

field-weighted

20 (29.9%)

number of publications in the top 10% most cited publications worldwide

- % publications in top 10% most cited
- % publications in top 1% most cited
- ▨ Incomplete year

Outputs in Top Citation Percentiles indicates the extent to which the publications are present in the top 10% most-cited percentiles within Scopus. This number is then field-weighted to normalize for differences in subject area citation patterns.

Publications in Top Journal Percentiles by CiteScore Percentile

Entity: Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

Share of publications in Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) that are in the top journals by CiteScore Percentile

Publications in Top Journal Percentiles indicates the extent to which the Publication Set's publications are present in the most-cited journals in Scopus by CiteScore percentile. The percentage thresholds are taken directly from the CiteScore Percentile values that are calculated by Scopus. A journal receives a CiteScore Percentile for each ASJC in which it's categorized. SciVal always uses the highest relevant CiteScore Percentile, which is dictated by the subject area filter.

Field-Weighted Citation Impact

Entity: Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

2.25

Field-Weighted Citation Impact of Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022)

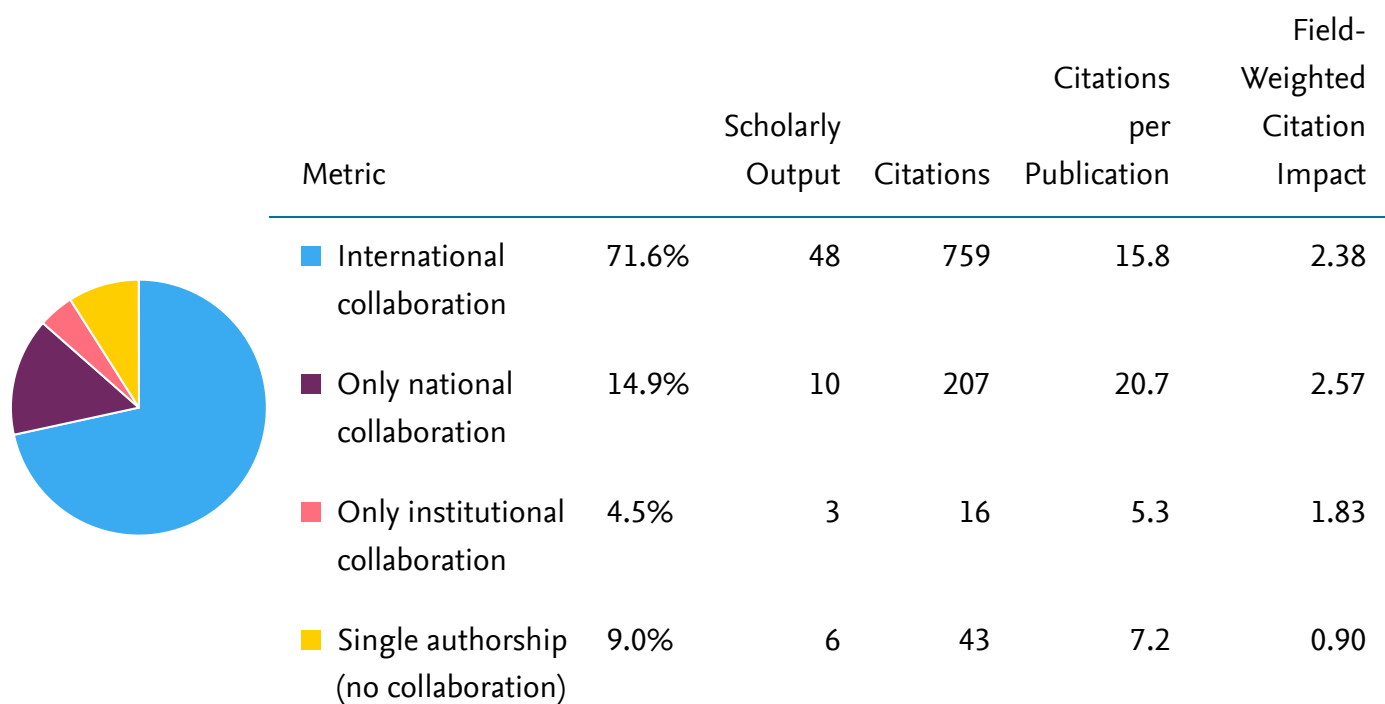

▨ Incomplete year

Field-Weighted Citation Impact (FWCI) indicates how the number of citations received by the Publication Set's publications compares with the average number of citations received by all other similar publications in Scopus. A FWCI of 1.00 indicates that the Publication Set's publications have been cited exactly as would be expected based on the global average for similar publications. A FWCI of more than 1.00 above average citations; for example, 2.11 means 111% more than the world average. Note: for Publication Sets with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Geographic Collaboration - Overall

Entity: Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

International, national and institutional collaboration by in Publications at Assiut University within SDG 8: Decent Work and Economic Growth (2019-2022) in the selected year range.

Indicates the extent to which the Publication Set's publications have international, national, or institutional co-authorship, and single authorship. A publication is assigned a single collaboration type.

Note: for collaboration types with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Top Authors

- ▨ Incomplete year

Outputs in Top Citation Percentiles indicates the extent to which the publications are present in the top 10% most-cited percentiles within Scopus. This number is then field-weighted to normalize for differences in subject area citation patterns.

Publications in Top Journal Percentiles by CiteScore Percentile

Entity: Publications at Assiut University within SDG 11: Sustainable Cities and Communities (2019-2022) · Year

range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

Share of publications in Publications at Assiut University within SDG 11: Sustainable Cities and Communities (2019-2022) that are in the top journals by CiteScore Percentile

Publications in Top Journal Percentiles indicates the extent to which the Publication Set's publications are present in the most-cited journals in Scopus by CiteScore percentile. The percentage thresholds are taken directly from the CiteScore Percentile values that are calculated by Scopus. A journal receives a CiteScore Percentile for each ASJC in which it's categorized. SciVal always uses the highest relevant CiteScore Percentile, which is dictated by the subject area filter.

Field-Weighted Citation Impact

Entity: Publications at Assiut University within SDG 11: Sustainable Cities and Communities (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

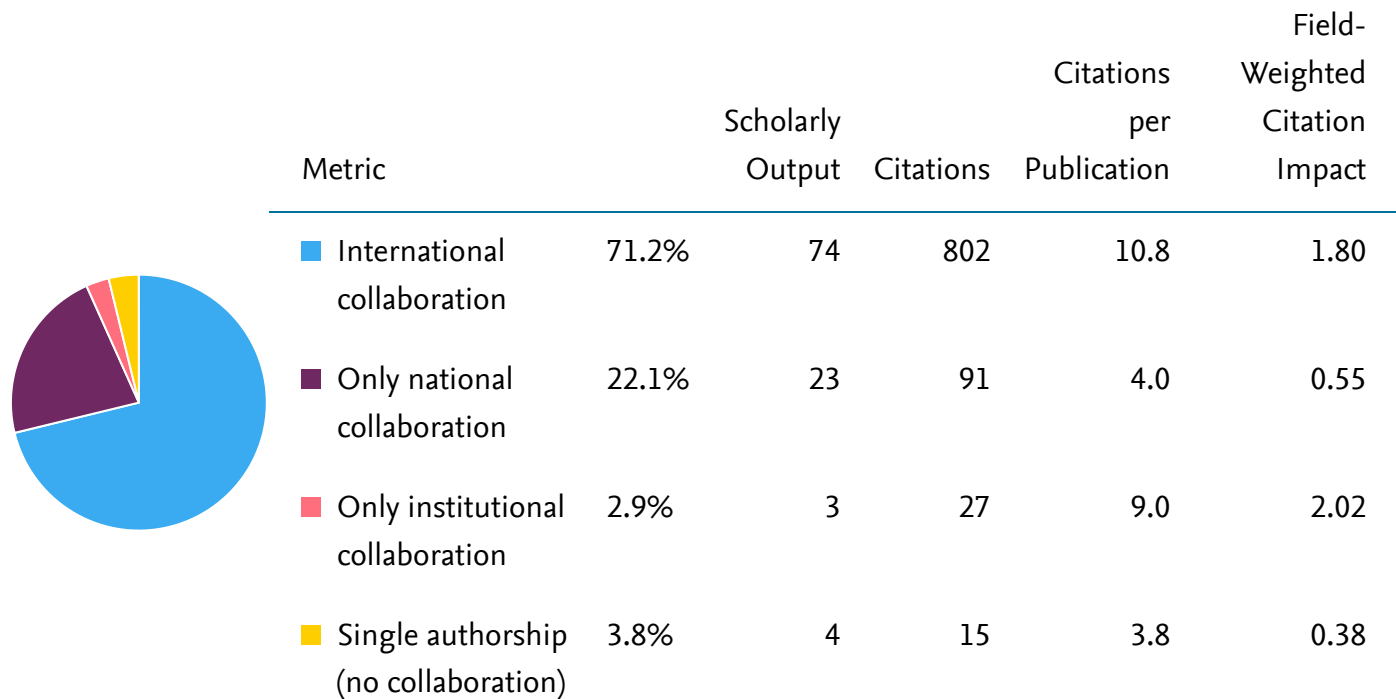

▨ Incomplete year

Field-Weighted Citation Impact (FWCI) indicates how the number of citations received by the Publication Set's publications compares with the average number of citations received by all other similar publications in Scopus. A FWCI of 1.00 indicates that the Publication Set's publications have been cited exactly as would be expected based on the global average for similar publications. A FWCI of more than 1.00 above average citations; for example, 2.11 means 111% more than the world average. Note: for Publication Sets with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Geographic Collaboration - Overall

Entity: Publications at Assiut University within SDG 11: Sustainable Cities and Communities (2019-2022) · Year range: 2019 to 2022 · Data source: Scopus, up to 10 May 2023

International, national and institutional collaboration by in Publications at Assiut University within SDG 11: Sustainable Cities and Communities (2019-2022) in the selected year range.

Indicates the extent to which the Publication Set's publications have international, national, or institutional co-authorship, and single authorship. A publication is assigned a single collaboration type.

Note: for collaboration types with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Top Authors

433	8.5	
Citation Count 	Citations per Publication 	

This analysis provides an overall metrics summary of the Publication Set. The snowflake means the metrics have been calculated using the Snowball Metrics methodology.

Note: for Publication Sets with a small scholarly output, please beware of highly cited publications which may skew the FWCI.

Publication share by Subject Area

Entity: Publications at Assiut University within SDG 15: Life on Land (2019-2022) · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

This gives an overview of the Subject Areas in which the articles from the Publication Set are published and is based upon the high level All Science Journal Classification (ASJC). These Subject Areas are assigned to all articles via the journals in which they are published. Please note, that an article can belong to more than one ASJC.

Scholarly Output

Entity: Publications at Assiut University within SDG 15: Life on Land (2019-2022) · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

51

number of publications by authors in Publications at Assiut University within SDG 15: Life on Land (2019-2022)

▨ Incomplete year

Scholarly Output indicates the prolificacy of the Publication Set: how many publications does the Publication Set have indexed in Scopus during the time period?

Note: some subject areas produce more scholarly output than others.

Citation Count

Entity: Publications at Assiut University within SDG 15: Life on Land (2019-2022) · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

433

number of citations received by publications in Publications at Assiut University within SDG 15: Life on Land (2019-2022)

▨ Incomplete year

Citation count indicates the total citation impact of the Publication Set: how many citations have these publications received? The years are always the years in which items were published, and do not refer to the years in which citations were received.

Note: some subject areas cite publications more often than others.

Outputs in Top 10% Citation Percentiles (field-weighted)

Entity: Publications at Assiut University within SDG 15: Life on Land (2019-2022) · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

Share of publications in Publications at Assiut University within SDG 15: Life on Land (2019-2022) that are among the most cited publications worldwide

field-weighted

10 (19.6%)

number of publications in the top 10% most cited publications worldwide

■ % publications in top 10% most cited

■ % publications in top 1% most cited

▨ Incomplete year

Outputs in Top Citation Percentiles indicates the extent to which the publications are present in the top 10% most-cited percentiles within Scopus. This number is then field-weighted to normalize for differences in subject area citation patterns.

Publications in Top Journal Percentiles by CiteScore Percentile

Entity: Publications at Assiut University within SDG 15: Life on Land (2019-2022) · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

Share of publications in Publications at Assiut University within SDG 15: Life on Land (2019-2022) that are in the top journals by CiteScore Percentile

Publications in Top Journal Percentiles indicates the extent to which the Publication Set's publications are present in the most-cited journals in Scopus by CiteScore percentile. The percentage thresholds are taken directly from the CiteScore Percentile values that are calculated by Scopus. A journal receives a CiteScore Percentile for each ASJC in which it's categorized. SciVal always uses the highest relevant CiteScore Percentile, which is dictated by the subject area filter.

Field-Weighted Citation Impact

Entity: Publications at Assiut University within SDG 15: Life on Land (2019-2022) · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

1.68

Field-Weighted Citation Impact of Publications at Assiut University within SDG 15: Life on Land (2019-2022)

▨ Incomplete year

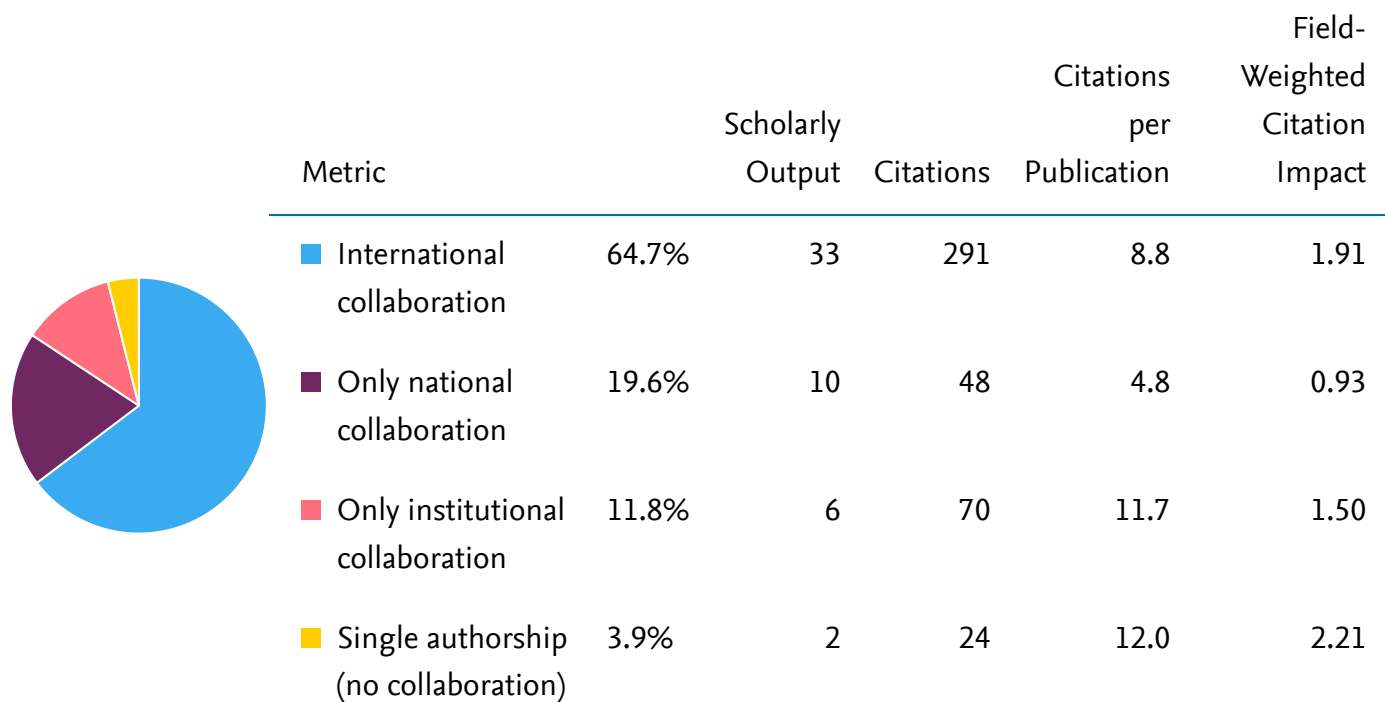

Field-Weighted Citation Impact (FWCI) indicates how the number of citations received by the Publication Set's publications compares with the average number of citations received by all other similar publications in Scopus. A FWCI of 1.00 indicates that the Publication Set's publications have been cited exactly as would be expected based on the global average for similar publications. A FWCI of more than 1.00 above average citations; for example, 2.11 means 111% more than the world average. Note: for Publication Sets with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Geographic Collaboration - Overall

Entity: Publications at Assiut University within SDG 15: Life on Land (2019-2022) · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

International, national and institutional collaboration by in Publications at Assiut University within SDG 15: Life on Land (2019-2022) in the selected year range.

Indicates the extent to which the Publication Set's publications have international, national, or institutional co-authorship, and single authorship. A publication is assigned a single collaboration type.

Note: for collaboration types with a scholarly output less than 1,000, please beware of highly cited publications which may skew the FWCI.

Top Authors

Entity: Publications at Assiut University within SDG 15: Life on Land (2019-2022) · Year range: 2019 to 2022 ·

Data source: Scopus, up to 10 May 2023

Name	Scholarly Output	Most recent publication	Citations	<i>h</i> -index
1. Hashem, Mohamed	9	2022	107	23
