Table Tennis:

- The table tennis table is used for college-level competitions among the four academic teams. The winning teams are then promoted to compete at the university level and, subsequently, at the national level. Additionally, the table tennis table is used for recreational purposes and training, where students play table tennis between practical classes and lectures to release energy and rejuvenate. The fee is a nominal one pound per hour.
- Table tennis competitions are also held among faculty members, students, and staff of the faculty.
- Visits are made to some primary, preparatory, and secondary schools in the governorate to use the fitness hall for practicing various sports and using different equipment.
- The revenue generated from these activities in the fitness hall is added to the student union budget to support and enhance it for various union activities.
- One suggestion to increase the activity in the fitness hall is to offer group training sessions for women and female students conducted by specialized trainers to help them release their energy and renew their vitality.
