

3.3.2 The University Outreach programs to improve local health awareness in 2024

Number of tables	Title
I	Conveys "Medical, Educational, Therapeutic, Veterinary"
II	Seminars/workshops
III	Training Courses
IV	Curriculum improving health and wellbeing

- The faculties and institutes of Assiut University participated in many activities during the academic year 2024, including several courses, seminars, and medical, cultural, and educational convoys, as a contribution to their role in community service, which helps in increasing awareness among citizens, their societal role, and spreading healthy cultures.
- During the year 2024, Assiut University Hospitals received several patients of different nationalities for treatment and provision of medical services, contributing to its societal role in serving foreign citizens, whether visitors, immigrants or refugees and each of them

received the necessary treatment in various medical specialties.

- Events carried out by the Assiut University during the year 2024.
