- **Community Outreach & Engagement:** Throughout the 2024/2025 academic year, the faculties and institutes of Assiut University actively organized a diverse array of training courses, seminars, and medical, cultural, and educational convoys. These initiatives actively promote public health awareness, foster civic responsibility, and encourage healthy lifestyle practices across local communities.
- **International & Inclusive Healthcare Services:** Assiut University Hospitals delivered comprehensive medical treatment to patients of various nationalities during 2024/2025. By providing specialized care across multiple medical fields to visitors, immigrants, and refugees, the university reaffirmed its commitment to international humanitarian support and community health.
- **Key University Events (2024/2025):** Overview of major initiatives and institutional activities carried out by Assiut University during the 2024/2025 academic year.
- The faculties and institutes of Assiut University participated in many activities during the

academic year 2024/2025, including several courses, seminars, and medical, cultural, and educational convoys, as a contribution to their role in community service, which helps in increasing awareness among citizens, their societal role, and spreading healthy cultures.

- During the year 2024?2025, Assiut University Hospitals received several patients of different nationalities for treatment and provision of medical services, contributing to its societal role in serving foreign citizens, whether visitors, immigrants or refugees and each of them received the necessary treatment in various medical specialties.
- Events carried out by the Assiut University during the year 2024/2025.

Faculty of Pharmacy

Report on Accomplishments: Medical Convoys (2024)

Medical Convoys of the Faculty of Pharmacy

1. Medical Convoy to Al-Dour Village – Sidfa District – Assiut Governorate
- Under the patronage of Prof. Dr. Ahmed El-Minshawy, President of the University; Prof. Dr. Mahmoud Ahmed Abdel-Aleem, Vice President of the University for Community Service and Environmental Development; Prof. Dr. Jihan Nabil Hassan, Acting Dean of the Faculty of Pharmacy; Prof. Dr. Hassan Refaat Hassan, Vice Dean of the Faculty for Education and Student Affairs; and Prof. Dr. Mohamed Mahmoud Mohamed Abdel-Latif, Vice Dean of the Faculty for Community Service and Environmental Development, and within the framework of the activities of the Faculty's Community Service and Environmental Development Sector for the academic year 2024/2025.
 - A medical convoy was organized to Al-Dour Village, Sidfa District, Assiut, with the participation of resident doctors from Assiut University Hospital and students of the faculty on Saturday, November 23, 2024. The convoy operated from 10:00 AM to 5:00 PM, providing medical examinations to underprivileged villagers across various specialties, including Internal Medicine, Pulmonology, Orthopedics, Dermatology, Pediatrics, Obstetrics and Gynecology, Ophthalmology, ENT (Ear, Nose, and Throat), and Dentistry.
 - Examinations and necessary medical tests were conducted for more than 600 cases from among the village residents, and medications were distributed to the

examined patients. Furthermore, students provided health awareness and medical consultations to the villagers regarding various conditions, such as hypertension, diabetes, and the risks of using antibiotics without a prescription.

2. Organizing a Medical Convoy to "Naza Qarar" Village – Manfalut District
Under the patronage of Prof. Dr. Ahmed El-Minshawy, President of the University; Prof. Dr. Jihan Hassan Feteih, Acting Dean of the Faculty; Prof. Dr. Mahmoud Ahmed Abdel-Aleem, Vice President of the University for Community Service and Environmental Development; and Prof. Dr. Mohamed Mahmoud Abdel-Latif, Vice Dean of the Faculty for Community Service and Environmental Development, and within the framework of the activities of the Faculty's Community Service and Environmental Development Sector for the academic year 2024, a medical convoy was organized to Naza Qarar Village, Manfalut District, Assiut Governorate, with **the participation of faculty students on Friday, May 3, 2024.**

Biosafety standards in laboratories and the risk of zoonotic diseases	Scientific seminar 20/5/2024	Vet. doctors working in the Directorate of Veterinary Medicine, teaching assistants, and professors from the Faculty of Veterinary Medicine.	The seminar addressed biosafety standards in laboratories, the presence of zoonotic diseases and their modes of transmission, necessary protection measures, and the basics of personal and community protection from infection.	-to hold a number of seminars on a broader and larger scale and to create a series of them. -Holding seminars and courses explaining the basics and standards of biosafety and seminars on biosecurity procedures in livestock production farms and poultry farms -Seminars were held on

				infectious diseases, as well as seminars and workshops in the field of biological and chemical laboratories, and seminars on how to safely dispose of waste. -These seminars should be held at the Veterinary Directorate in Assiut to allow for grater attendance.
An overview of feed additives and their importance in animals and poultry	Scientific seminar 9/6/2024		-The seminar addressed a simplified overview of the elements that increase profitability in livestock and poultry production projects, including the selection of suitable breeds, the importance of vaccination, treatment, biosecurity, and active management, in addition to nutrition, nutritional needs, and feed specifications. -The classification of feed additives, their importance, and their scientific significance in increasing production, increasing the weight of animals and poultry, and improving their immunity.	The recommendations included holding a number of seminars on a broader and larger scale, creating a series of them, and holding seminars and courses explaining the basics and standards of feed additives, as well as holding many workshops in this field.

Use of diagnostic radiology in small animals	Scientific seminar 6/8/2024		-The seminar addressed the standards for using diagnostic radiology in small animals.	The recommendations were to hold a number of training courses on a broader and larger scale, creating a series of them, and increasing the number of training days in the same field to maximize benefit.
Fields of work for a veterinarian: opportunities and challenges	Scientific seminar 6/11/2024	Vet. doctors working in the Directorate of Veterinary Medicine, teaching assistants, and professors from the Faculty of Veterinary Medicine	The seminar addressed common pet diseases, methods of dealing with them, their danger to human health, and the necessary vaccinations.	The recommendations included studying the possibility of creating a database on pets and their owners, emphasizing the need to provide opportunities to educate pet shop owners, and communicating with the Department of Tropical Medicine at the Faculty of Medicine to highlight the seriousness of transmitted diseases. Emphasis should be placed on raising public awareness about the seriousness and importance of pet diseases, their risks to human health, methods of prevention, the necessity of regular vaccinations for pets against endemic diseases, educating pet owners on proper handling and disinfection of their animals, and informing veterinarians about the necessary health procedures.

Experimental animals: Handling, care & use in scientific research	Workshop 25/12/2024

Event title	Event type/ Date	Organizers /participants	Target group	Effectiveness/ Objectives	Recommendation
"Workshops at the Dental Hospital on First Aid and Emergencies –	December 9, 2025	The Community Service and Environmental Development Sector at the Faculty of Medicine and Dentistry	Dental Health care workers	Awareness about First Aid and Emergencies	Apply First Aid Measures
Awareness Seminar Comprehensive Pediatric Dental Examination and Treatment Planning: From Diagnosis to Clinical Decision. Orthodontic Treatment ; When to Start?	October 30, 2025	The Community Service and Environmental Development Sector at the Faculty Dentistry General Administration of Dentistry, Directorate of Health in Assiut"	"Doctors from the Ministry of Health and Health Insurance in the governorate, assistant teaching staff, and intern doctors at the faculty."	– Updating physicians on the latest developments in comprehensive pediatric dental examination and treatment planning—from the diagnostic stage to clinical decision-making. – Evidence-based and optimal timing for pediatric orthodontic intervention	Increasing the number of seminars and scientific days dedicated to doctors from the Ministry of Health and the Health Insurance Authority.
From Diagnosis to Intervention: Bruxism Protocols and Practical Treatment Approaches	November 17, 2025	The Community Service and Environmental Development Sector at the Faculty Dentistry General Administration of Dentistry, Directorate of Health in Assiut"	"Doctors from the Ministry of Health and Health Insurance in the governorate, assistant teaching staff, and intern doctors at the faculty."	Evidence-based and optimal timing for pediatric orthodontic intervention	. increasing the frequency of seminars and scientific days dedicated to doctors from the Ministry of Health and the Health Insurance Authority.

Odontogenic infection: Know your enemy, Master the basics Tongue lesions as an oral diagnostic challenge	December 25, 2025	The Community Service and Environmental Development Sector at the Faculty Dentistry General Administration of Dentistry, Directorate of Health in Assiut"	"Doctors from the Ministry of Health and Health Insurance in the governorate, assistant teaching staff, and intern doctors at the faculty."	Updating physicians on the latest developments in diagnosing and managing tongue disorders, along with their clinical correlation to systemic diseases affecting the body	Increasing the number of seminars and scientific days for Ministry of Health and Health Insurance physicians.
An Awareness Day for Parents and Guardians of Children	November 3, 2025	Pediatric department	" Parents."	An Awareness Day for Parents hosted by the Department of Pediatric Dentistry on the importance of maintaining primary (baby) teeth, the risks of premature tooth loss, and its negative impact on oral health, normal jaw development, and speech articulation.	Increasing the number of awareness seminars for patients.
An Awareness Day for Parents and Guardians of Children	December 15, 2025	Pediatric department	" Parents."	An Awareness Day for Parents hosted by the Department of Pediatric Dentistry on the importance of maintaining primary (baby) teeth, the risks of premature tooth loss, and its negative impact on oral health, normal jaw development, and speech articulation.	Increasing the number of awareness seminars for patients.
Seminar: First Aid	December 9, 2025	Community Service and Environmental Development Sector, Faculty of Medicine	For healthcare providers and administrative staff.	Enhancing staff competency through educational seminars, training courses, and practical workshops.	Conducting additional awareness lectures.

Seminar: First Aid	December 23 2025	Community Service and Environmental Development Sector, Faculty of Medicine	For healthcare providers and administrative staff.	Enhancing staff competency through educational seminars, training courses, and practical workshops.	Conducting additional awareness lectures.
Infection Control Basics for Healthcare Workers at the Dental Hospital –	December 23, 2025"	The Community Service and Environmental Development Sector at the Faculty of Medicine and Dentistry	Dental Interns	Awareness about infection control	Apply infection control
Workshop Rubber dam isolation	October 14, 2025"	Continuing Medical Education (CME) Unit	Graduate physicians affiliated with the faculty, along with doctors from the Ministry of Health and the Health Insurance Authority.	The dentistry workshops aim to develop the practical and scientific skills of students and doctors in the field of oral and dental medicine.	It is recommended to increase the frequency of hands-on dental training workshops, given their vital role in enhancing the competence of physicians and students and elevating the overall quality of healthcare services.
Oral Surgery Essentials: A Hands on Experience	December 14-15 , 2025"	The Community Service and Environmental Development Sector at the Faculty and Dentistry	Graduate Physicians and College Alumni / Affiliates	English Translation (Professional Context): Objective of Dental Workshops: Dental workshops aim to enhance the competency of doctors and students and improve the overall quality of healthcare services. 11. Alignment with Sustainable Development Goals (SDGs) according to the Executive Plan of the	It is recommended to increase the frequency of hands-on training workshops.

				Strategic Plan for the Community Service and Environmental Development Sector, Assiut University (2024–2029):	
Basic principles of infection control and internal auditing at a dental hospital	22/12/2024	Faculty of dentistry in cooperation with I infection Control Department, University Hospitals	Faculty Doctors – Nurses – Workers	Introductory and awareness lectures on sound scientific principles in following infection control procedures for medical service providers, including doctors, nurses, and service workers, in addition to conducting an internal review of the University Dental Hospital.	Adherence to infection control procedures

Molecular Biology Institute					
	Title	Date	Place	Target group	Objective
1.	awareness seminar entitled “Enhancing Awareness: Understanding Treatments Affecting Drug Testing.”	On 11 February 2025	Molecular Biology Institute	Students and employees and staff members	The seminar aimed to raise awareness about medications and treatments that may affect the results or interpretation of drug-testing procedures.
2.	A community seminar entitled “Healthy Fasting During Ramadan” was organized.	On 3 March 2025	Molecular Biology Institute	Students and employees and staff members	The seminar addressed health practices related to safe and healthy fasting during Ramadan. The event was attended by 193 participants.

3.	A seminar entitled “Healthy Nutrition During Ramadan.”	On 20 March 2025	Molecular Biology Institute	Students and employees and staff members	The seminar focused on appropriate nutritional practices and maintaining a healthy diet during the holy month of Ramadan.
4.	An environmental awareness seminar entitled “Clean Environment = Healthy Life.”	On 27 November 2025,	Molecular Biology Institute	Students and employees and staff members	The seminar addressed environmental protection, maintaining a clean environment, tree planting, home gardening, and rooftop agriculture, with the aim of promoting environmental awareness and healthy living.
5.	Poper Nutrition in Ramadan	20-3-2024	Molecular Biology Institute	Students and employees and staff members	Awareness about Poper Nutrition in Ramadan
6.	Raising awareness to understand Autism	26-3-2024	Molecular Biology Institute	Students and employees and staff members	Raising awareness to understand Autism
7.	Understanding treatments affecting addiction tests	11-2-2024	Molecular Biology Institute	Students and employees and staff members	Raising awareness to Understanding treatments affecting addiction tests

III- Training Courses/Visits

Faculty of Medicine

Event type	Title	Date	Place	Target group	Objective
Field Visit	Orientation day	17-12-2025	International Smart school At New Assiut city	School Students	Orientation about Good Nutrition
Field Visit	Orientation day	2-3=2025	Badr University Assiut city	School Students	Orientation about Diseases of bad Nutrition
Training Course	First Aid Training Course for High School, Technical Diploma, and Bachelor's Degree Students	February 23, 2025"	The Community Service and Environmental Development Center	High School, Technical Diploma, and Bachelor's Degree Students	Apply First Aid Training
Training Course	Training Course on Elderly and Chronic Disease Care (Elderly Caregiver) for High School, Technical Diploma, and Bachelor's Degree Students	- April 24, 2025"	The Community Service and Environmental Development Center	High School, Technical Diploma, and Bachelor's Degree Students	Awareness about Elderly and Chronic Disease Care (Elderly Caregiver)
Training Course	First Aid and Crisis Management Training Course –	June 25, 2025	The Community Service and Environmental Development Center	High School, Technical Diploma, and Bachelor's Degree Students	Awareness about First Aid and Crisis Management
Training Course	"First Aid and Crisis Management Training Course	May 19, 2025	The Community Service and Environmental Development Center	High School, Technical Diploma, and Bachelor's Degree Students	Awareness about First Aid and Crisis Management
Training Course	Health Literacy and Crisis	July 14, 2025	The Community	High School, Technical	Awareness about Health

	Management Training Course –		Service and Environmental Development Center	Diploma, and Bachelor's Degree Students	Literacy and Crisis Management
Training Course	First Aid and Emergency Training Course for Dental Interns	– October 29–30, 2025	The Community Service and Environmental Development Center	Dental Interns	Awareness about First Aid and Emergencies
Training Course	infection Control Training Course for Dental Interns –	October 27–28, 2025"	The Community Service and Environmental Development Center	Dental Interns	Awareness about infection control
Training Course	First Aid and Emergency Training Course for Dental Interns –	November 10–11, 2025"	The Community Service and Environmental Development Center	Dental Interns	Awareness about First Aid and Emergencies
Training Course	infection Control Training Course for Dental Interns –	November 12–13, 2025	The Community Service and Environmental Development Center	Dental Interns	Awareness about infection control
Training Course	Primary Health Care Training Course for High School, Technical Diploma, and Bachelor's Degree Students –	September 30, 2025"	The Community Service and Environmental Development Center	High School, Technical Diploma, and Bachelor's Degree Students –	Awareness about Primary Health Care
Training Course	Infection Control Basics for Healthcare Workers at the Dental Hospital –	December 23, 2025"	The Community Service and Environmental Development Center	Dental Interns	Awareness about infection control
Training Course	Training Course for Newly Appointed Nursing Staff at the Urology Hospital –	July 14, 2025"	Urology Hospital	Nursing Staff	Awareness for Newly Appointed Nursing Staff
Field Visit	Team of Young Doctors Conducts a Field Visit to Al-Salam Preparatory	Thursday, February 22, 2024.	Al-Salam Preparatory School	School Students	The visit aimed at enhancing students' engagement in scientific

	School to Raise Awareness about Lung Cancer and the Dangers of Smoking				activities and conferences. A total of 25 medical students from various academic years participated in the outreach program, where they met with over 200 school students to raise their awareness about the dangers of smoking, its harmful effects on the respiratory system, and its potential to cause lung cancer, circulatory failure, and other serious physical and psychological health problems.
Training course	Basic Care for Low-Birth-Weight Newborns and Assistance with Breathing	Monday, September 9, 2024	Women Health Hospital	Pediatric physicians	The training focused on helping newborns breathe and providing essential care for low-birth-weight infants, with the aim of improving the efficiency and skills of the nursing staff to deliver high-quality healthcare.

Training course	First aid for medical students and dentists	3-7-2024 to 19-9-2024	Training center of Community Service and Environmental Development- Faculty of Medicine	medical students and dentists	The training focused on helping medical students and dentists to perform First aid
Training course	First aid for medical students and dentists	26-9-2024 to 28- 9-2024	Training center of Community Service and Environmental Development- Faculty of Medicine	medical students and dentists	The training focused on helping medical students and dentists to perform First aid
Field Visit.	Health Awareness Event – Faculty of Law Proper nutrition during Ramadan and malnutrition-related diseases among the student community.	Sunday, 31 March 2024	students and university employees.	awareness about the Proper nutrition during Ramadan and malnutrition-related diseases among the student community.	The collaboration between the Faculties of Medicine and Law demonstrated the success of interdisciplinary health initiatives and reinforced the university's role in advancing community wellness.
