**Assiut University Policies**  
**in Addressing Certain Environmental Issues**

**\*\*\*\*\***

**Handling Food Waste**

**Kitchen Waste in the Central Restaurant, University Dormitories, and  
University Hospitals**

*(Organic Waste and Packaging Waste)*

- Non-hazardous solid waste is collected in designated areas, either in solid waste rooms or collection points within the university dormitories.
- The amount of leftover food generated by Assiut University is approximately 800–1000 **kg daily** during the academic year.
- Solid waste is transported to sorting facilities where it is processed and recycled. Empty plastic containers and empty metal containers are among the items utilized in recycling efforts.
