  - **Bachelor** of Medicine and Surgery (MBBch) from Faculty of Medicine, Assiut University, 2003.
  - **Master degree** in radiology (MSc) from radiology department, Assiut University, October 2008.
  - **Ph.D. degree** in radiology from radiology department, Assiut University, October 2015.

## **BACKGROUND:**

- **Ph.D. Topic:** Comparative Study Of Shoulder MDCT Arthrography Versus MR Arthrography Using One- Shot Examination.
- **M.Sc. Thesis:** Imaging of Adrenal Lesions.
- **Experiences:**
  - The rotating House officer period (1/3/04-28/2/05) was divided into two months in each of the following departments: Gynaecology & Obstetrics, General Surgery, Paediatrics, Internal Medicine, Anaesthesiology, Traumatology, Causalities Unit & Emergency Unit.
  - The residency period (1/3/05-29/2/08) during which I worked in a rotatory pattern all over all units of radiology department, my link as a junior continued for 6 months till 31/08/05. I'm working in all units of our department including main hospital, trauma unit, emergency unit, pediatric hospital.
  - After joining the radiology department as **demonstrator (March 2009-July 2009).**, and as **a lecturer (July 2009 to October 2015)**, I have gaining extensive clinical, radiological and intraoperative follow up experience for my cases to confirm my radiological diagnosis.
- **Teaching activities:**
  - Supervising, teaching and directing students, house officers and residents since 2009.
- **Training courses & conferences :**
  - The refresher course of the Egyptian Scientific Society of Radiology and Nuclear Medicine (ESRNM) titled "Musculoskeletal Imaging" in collaboration with our department in Assiut university, December 2005.
  - The second congress of radiology "Uroradiology Refreshing Course" by our department in collaboration with urology department in Assiut university, December 2006.
  - Annual scientific conference of our department, December 2009, state of art of MSCT application, now we have 4 MSCT machines (16&64) Toshiba, GE, Seimens and 256 philips will be available within few months in recently prepared specialized cardiac center that is expected to be one of the largest centres in Egypt regarding capacity and financial funding.
  - 30<sup>th</sup> annual conference of faculty of medicine April 2014.

- Minia radiology forum (14th London-Sheffield Global Diagnostic Educational Program) in liaison with Egyptian society of radiology and nuclear medicine and Radiology department of Minia university 13-14 February 2020 at Armed forces hotel, Minia and has been approved by the Royal College of radiologists.
- First Egyptian thyroid association conference held by Egyptian thyroid association in collaboration with Assiut medical syndicate, 18-19 February 2020 at Assiut university.

### **Current Research Interests**

- Recent advances in radiology, specially musculoskeletal radiology and women imaging.
- **Research achievement:**
  - **Mahmoud, Mohammad Koriem, Yousef Mohamad Badran, Hatem Galal Zaki, and Abeer Houssein Ali. 2013** "One-shot MR and MDCT arthrography of shoulder lesions with arthroscopic correlation." The Egyptian Journal of Radiology and Nuclear Medicine 44, no. 2: 273-281.
  - **Ali AH, Said HG, Abo Elhamd E, Mahmoud MK, Qenawy OK. 2021** "Shoulder MR arthrography: comparative evaluation of three different contrast injection techniques using an anterior approach. Journal of Magnetic Resonance Imaging 53 (2), 481-490
- **Social activities:**
  - Our hospitals offer both free and paid services for the help of society; for example the main hospital only has about 2200 beds, millions of people travel to our hospitals seeking medical advice, it is the largest hospitals that were gathered in a medical village all over Egypt furthermore the most famous in upper Egypt over many years and up till now and also one of the famous medical centres all over Egypt.
  - Sharing in medical convoys directed for poor villages.
