6. Clinical experiences in Assiut, Egypt (1992-till Present):

Assiut University was inaugurated in 1957 to encourage research, education and community services in Upper Egypt. It is located in Assiut city which is 375 Km south of Cairo, the capital. The university

comprises sixteen faculties and two higher institutions. PO Code No. 71515, Egypt. <http://life.aun.edu.eg>

Assiut University Hospital is the biggest hospital in Upper Egypt and is the 3rd biggest in the whole country with continuous expansion. It is the core referral center for the whole Upper Egypt that serves about twenty million people. The hospital contains 2027 beds, including 94 ICU beds, and 46 operative theaters in which 240 operations are performed daily. 1478 medical and 6428 paramedical staff serves in this hospital. 3000 patients visit the outpatient clinics and 1000 are received in the emergency departments daily. The Department of Internal Medicine consists of >160 beds including Hepatology and Gastroenterology Unit (30 beds), Gastroenterology Intermediate Care Unit (8 beds), GIT Oncology Unit (8 beds), Infectious Diseases & Fevers Unit (8 beds), Interventional Ultrasonography Unit, GIT endoscopy Unit and Laparoscopy Unit in addition to a side-room laboratory, Endocrinology Unit (16 beds), Diabetes and Metabolism Unit (16 beds), Hematology Unit (16 beds), Hamatologic intensive care Unit (6 beds) with a lab. For plasmapheresis, Cardiology Unit (16 beds), Coronary intensive care Unit (10 beds), Nephrology Unit (16 beds) with a large dialysis unit and Rheumatology unit (10 beds) with a unit for EMG&NCV.

During my job in this department, I have worked as a House Officer (Intern) for one year, as a Senior House Officer (resident doctor) for 3 years and as a Registrar (Assistant Lecturer) for 6 years.

My clinical duties included outpatient clinic sessions (new and follow up patients), ward rounds, 2-3 shifts per week (each lasting 24 hours, taking care of newly admitted and emergency cases). My duties also included performing GI endoscopy, abdominal ultrasonography and also performing pre operative assessment of patients in different departments. Moreover, I have participated in medical seminars, journal clubs, case presentations, conferences, and clinical research project. The post was

rotational between the different units every 3 or 4 months. The team would generally consist of one Professor (consultant), one Lecturer (senior registrar), one Assistant Lecturer (registrar), and one Senior House Officer (resident). I had the chance to deal with several hundreds of cases in the following specialties: Cardiology, Endocrinology & Diabetes, Hematology, Nephrology, Respiratory Medicine & TB, and Rheumatology, in addition to dealing with emergency cases.

During my rotation in the Hepatology, Gastroenterology & Fevers Units, I have dealt with thousands of patients with liver and gastrointestinal diseases, and systemic infectious diseases especially those prevalent in Egypt (mainly TB, Hepatitis, typhoid fever, meningitis, chronic diarrhea, PUO, many parasitic infections), in addition to hepatic, gastrointestinal, and abdominal emergencies. I have also dealt with hundreds of cases presenting with fever \pm anemia \pm jaundice \pm hepato/splenomegaly \pm lymphadenopathy, and cases with hidden sepsis, such as amoebic abscess, psoas abscess, perinephric and subphrenic sepsis plus many others.

I have also been helping my Egyptian Professors in their private clinics and endoscopy Unit performing case taking, clinical examination, Ultrasonography and Endoscopy under their direct supervision).
