2021	Up till now	Dept. of Gastroenterology, Hepatology And Trop. Med.( Assiut University Hospitals)	Gastroenterology and Tropical, Infectious Disease, Endoscopy

## Clinical Experience :

### **CLINICAL PRACTICE :**

As a resident physician And during my training program I worked at the following units:

#### Emergency unit:

All primary and advanced skills concerning diagnosis and management of gastrointestinal , hepatic and tropical emergencies and advanced cardiopulmonary resuscitation . All emergency cases are first managed at this unit for stabilization before transferring them to appropriate places .

#### Outpatient clinics:

In the outpatient clinics, I have worked in different clinics as Infection control and vaccination clinic for vaccinations and prophylaxis, Clinic of viral hepatitis which concerning with the management and followup of chronic hepatitis B, C and combined B and C infections , General clinic dealing with different hepatic and gastrointestinal cases .

#### Department of Gastroenterology ,Hep. And Trop. Med :

I had the experience in the diagnosis and management of the different hepatology & gastroenterology cases such as acute and chronic hepatitis, liver cirrhosis and its complications, hepatic encephalopathy, hepato-renal syndrome, hepatic malignancy, infections of the liver such as amoebic and pyogenic abscess, upper and lower GI bleeding, acute and chronic diarrhea, acute and chronic pancreatitis, gastrointestinal

malignancies, peptic ulcer diseases, reflux diseases, acute abdomen, functional gastrointestinal disorders.

*Fevers and Infectious Diseases Unit :*

I had the experience in the diagnosis and management of the different cases of fevers of different aetiologies plus fever of unknown origin . Also I had the experience in the dealing and care for all infectious diseases .

*GIT & Trop. intermediate intensive care unit (IICU):*

Cases with a severity of illness that does not require intensive care but does require greater services than those provided by routine inpatient general gastrointestinal care are admitted to this unit. Hepatic patients are admitted also to this unit.

*GIT & Trop. intensive care unit (ICU):*

Patients with severe, life-threatening, or unstable diseases especially those cases that need mechanical ventilation are admitted to this unit. During my duty time in this unit I have got the experience in advanced life support, mechanical ventilation, blood gas analysis interpretation, and care of critically ill patients.

*Experience in practicing Hepatology through an evidence based medicine approach and using Up To Date programs and websites .*

**INVESTIGATORY SKILLS :**

- Basic skills for conducting abdominal ultrasonography
- Basic skills for interpreting C.T Abdomen.
- Basic skills for conducting and interpreting liver biopsy.
- Basic skills for conducting and interpreting ECG.

## Endoscopy

- Performance with independency of diagnostic upper and lower endoscopy and performing different intervention as band ligation, variceal injection, haemostatic procedure, biopsy, clips and polypectomy
- Performance with independency endoscopic retrograde cholangio-pancreaticography with different intervention
-

## Professional memberships:

Membership of the Egyptian Medical Syndicate (EMS ).

The Egyptian Association of Vira Hepatitis .

## Training courses and conferences :

- I participated in all scientific conferences held at our department from 2008.
- Weekly activities:
  - \* In the Assiut University Hospital.
