

# Norhan Attia Ahmed

## Professional Experience

### Clinical pharmacist, Neonatal Intensive Care Unit (NICU), Children's Hospital-Assiut University, Assiut, Egypt

2019-2023

- Collaborated with neonatologists and the healthcare team to optimize medication therapy for critically ill neonates.
- Monitored and adjusted medication regimens based on the unique pharmacokinetic and pharmacodynamic needs of neonatal patients.
- Provided expert consultations on drug therapy, potential side effects, and dosing adjustments specific to neonatal care.
- Calculated and prepared Total Parenteral Nutrition (TPN) formulas tailored to the nutritional needs of neonates.
- Ensured the safe and effective use of medications through meticulous interpretation of prescriptions and health products.

### Demonstrator of Clinical Pharmacy Department, Faculty of pharmacy Assiut University, Assiut, Egypt. 2023-Present

- Educate pharmacy students on the fundamentals of Clinical Pharmacy, including Therapeutics, Pharmacokinetics, Pharmacoeconomics, Hospital Pharmacy, and Medication Safety.
- Actively contribute to academic research; published a paper in *Frontiers in Pharmacology* titled "Pharmaceutical Interventions for Drug-Related Problems in the Neonatal Intensive Care Unit: Incidence, Types, and Acceptability."
